

Gift Bag/Box

Supplies

1 Piece of A5 Card
Adhesive Wet Glue
Paper to decorate
Scrap card and paper to make a matching tag

Step-by-step

With your A5 card horizontal score at 2, 4, 6 & 8 inch or (50, 100, 150 & 200mm)

Turn your card 45 degrees and score at 2 inch or (50mm)

You will now see that along the bottom you have 4, 2 inch or (4, 50mm) squares and a section that is app 5/16th's x 2 inch or (8mm x 50mm) – Cut this piece away

At this point if you want to decorate the front of your bag/box do so.

Cut from the bottom up to the 2 inch score line on the 3 fold lines.

Fold all the score lines to make the assemble easier, you will see you have one end of your card that is a thin section above where you cut away, fold this so it will be inside your bag/box and apply glue.

Bring the opposite side over and stick it to this section, open out and you will have the square shape of your box.

Fold in the bottom flaps one by one sticking as you go.

Pinch in the sides at the top and punch 2 holes fasten with ribbon or thread.

Make a tag from scrap card and paper to match.
